TABLE COVERS

WHEN CHOOSING A TABLE COVER HAVE YOU CONSIDERED...

- **SIZE** - What size is your table?
- **FABRIC/MEDIA** - What type of material are you looking for?
- **FREQUENCY** - How often will you be using your table throw?
- **USE** - Will people be sitting at the table, or will it be used to showcase merchandise or promotional materials?
- **MESSAGE** - Do you want a logo printed on the front, or would you like a full-color design that covers the full throw?

AMERICA'S FINEST RETRACTOR

To guarantee superior quality, we have developed an RCAT (Retractor Calibration Assessment Test) machine that assesses retractable banner components. Each retractor is tested and rated to a minimum number of times it will extend and retract with normal use, helping you find a retractor that meets your exact needs. The RCAT rating certification lets you have confidence in your retractable banner display, no matter which one you choose.

SCRIM VINYL

Scrim is made by sandwiching a strong woven polyester fabric between two layers of vinyl. The vinyl provides a smooth surface for printing, while the scrim reinforces it for strength. Scrim texture will be subtly visible on the backside of the banner.

Wind Test Assessment: Giant Outdoor Flag withstands winds up to 25 mph with full water ballasts.
Disclaimer: Wind rating conducted in a controlled environment. Outdoor products should be taken down if bad weather is likely. Wind gusts and heavy rain could reduce the wind resistance of these products.

Adjust the height from 10' to 17' with the push-button telescoping pole.

The banner's grommets attach to clip rings on the pole to make graphic changes quick and easy.

Base sections can be filled with water or sand for stability.

Ballast signboards (sold separately) attach to clips on the support legs.

TENTS & EVENT PRODUCTS

WHEN CHOOSING A TENT OR EVENT PRODUCT HAVE YOU CONSIDERED...

- **LOCATION** - Where will this tent be used?
- **LONGEVITY** - Is this a long-term or short-term application?
- **MESSAGE** - What is the desired impact of your imprinted message?
- **WEATHER** - Do you need ballasts, stakes or lights?
- **ACCESSORIES** - Would you like to add games and activities?

Wind Test Assessment - All of our tents are rated to withstand winds up to 25 mph. We recommend ground stakes with rope and two steel or one water ballast per leg.

Disclaimer: Wind rating conducted in a controlled environment. Outdoor products should be taken down if bad weather is likely. Wind gusts and heavy rain could reduce the wind resistance of these products.

FLOOR DISPLAYS

WHEN CHOOSING A FLOOR DISPLAY HAVE YOU CONSIDERED...

- **SIZE** - What is the size of your space?
- **FREQUENCY** - How often will you be setting up and taking down your display?
- **TRANSPORT** - How will this display be transported?
- **FLEXIBILITY** - Will you be changing out your message and look frequently?
- **ACCESSORIES** - Do you need lights for your display, and will power be available?

EUROFIT MODULAR DISPLAY SYSTEM

MORE VERSATILE. MORE CONNECTED. MORE MODULAR.

Double-sided graphic covers slide on and off, making frequent layout changes a breeze.

Lightweight aluminum tubing is consistent in size to ensure compatibility with the EuroFit Connector.

Slim swivel feet allow units to be paired at angles.

EuroFit Connector holds individual units together.

DELUXE GEOMETRIX CONNECTOR DISPLAY

Our popular Deluxe GeoMetrix display now comes in several new configurations, featuring multiple units linked together with our brand new connector shelves. Our new edge graphic panels complete the look.

- Impact-resistant clear shelves install in seconds
- Each internal shelf supports up to 15 lbs. and each connector shelf supports up to 5 lbs.
- Edge graphic panels are constructed of polyester double knit, and are dye sublimated with a full-color graphic
- Additional shelves and edge graphic panels can be purchased separately (see pages 157 and 163)

Kit 342031

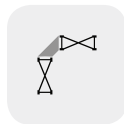

Connector shelves link two displays together and add shelf space in between.

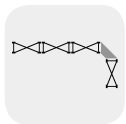

Corner faceplates slide into grooves in the frame's edge hubs.

Connector shelf is notched to fit seamlessly over pegs on the corner faceplate.

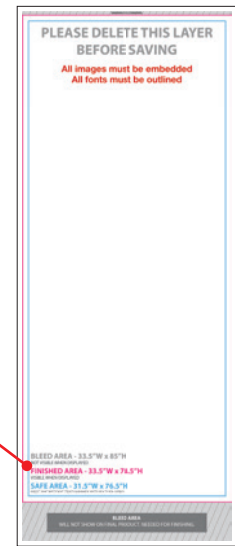

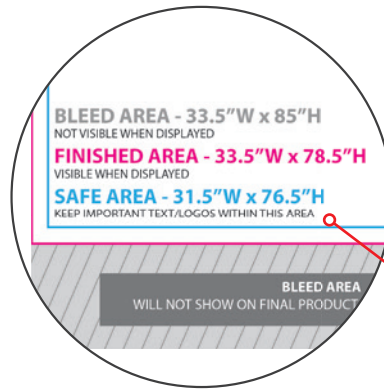

GRAPHIC & PRINT GUIDELINES

PRODUCT TEMPLATES

Templates ensure artwork is printed correctly. Always use the most recent templates, which can be found in the "Graphic Info" tab on each product page of our website.

- Do not leave template lines in artwork
- Templates are available for custom products/orders upon request

Save TIME, MONEY and HASSLE with templates specifically created for each product.

Each template includes file setup specs for sizing your artwork, including the bleed, finished and safe areas.

PRINT METHOD	PRODUCTS	ACCEPTABLE FILES	FILE FORMAT	PRINTING SPECIFICATIONS
Full-Color Imprint	Directors Chairs Event Chairs Table Covers Tents	Vector with fonts outlined	Adobe Illustrator .ai .eps .pdf	<ul style="list-style-type: none"> • All files are printed in CMYK (process color); PMS (spot) colors and RGB files will be converted to CMYK prior to printing • Halftones/percentages of PMS colors and contained gradients are acceptable • Minimum line thickness 0.125" (8-9 pt. stroke) • Minimum of 0.25" width and height on all individual elements • Minimum of 0.5" x 0.5" for all registered trademarks, trademarks, copyright symbols, etc.

VECTOR ART

(Recommended for all products)

- Can be scaled to any size while maintaining quality
- Known as line art
- Vector artwork is preferred (unless printing photos)

.eps, .ai, .pdf

RASTER ART

- Known as bitmap art
- Composed of pixels (or tiny squares) grouped together to make one complete image
- When scaled larger, the image will look pixelated (or jagged)
- Submit art at 200 DPI (dots per inch)

.tif, .psd, .eps, .pdf, .jpg

OUTLINED FONTS

(Required for all products)

Font selection can vary from computer to computer, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to curves before submitting artwork.

EMBEDDED IMAGES

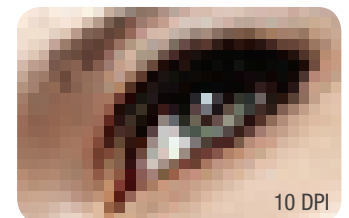

(Required for all products)

Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can suddenly vanish when opened from a different computer. Embed all images to avoid losing them when files are submitted.

200 DPI

High resolution images include:
Unedited, original raw digital photos and stock photos

10 DPI

Low resolution images are:
Photos taken from the internet, scanned images, photos taken on a cell phone, screenshots, etc.

UNACCEPTABLE FILE FORMATS:

Quark, Corel Draw, Word, PowerPoint, Excel, Publisher, Pagemaker, low-resolution scanned images. (InDesign files, unless exported to .eps or .pdf format, will incur additional charges or be rejected.)

GRAPHIC & PRINT GUIDELINES

FILE PREPARATION

PRODUCT TEMPLATES

Graphic templates can be found in the "Graphic Info" tab on each product page of our website. Graphic dimensions are subject to change without notice.

REQUIREMENTS

Documents must be print ready and submitted at 100% final size, with no additional manipulation necessary; additional charges may apply if these terms are not met. Before submitting artwork, convert all text to outlines, paths or curves to ensure exact duplication of type style. Alterations to submitted artwork will result in a necessary proof approval, which may delay production time. We reserve the right to delay or reject any order based on the quality of the artwork received.

We also reserve the right to make slight alterations to your file to adapt to our printing process. Some thin lines or small shapes may not reproduce at the size or thickness submitted. Multicolor close-registration prints are not available on all products.

Please see page 188 for specific information relating to each print method.

ARTWORK SUBMISSION & PROOFING

UPLOADING ARTWORK

For the fastest and most efficient artwork processing, please submit art via our website. Please keep in mind that our factory will not be held responsible for any server malfunction that affects the receipt of your files.

ELECTRONIC PROOFS

Proofs are provided electronically in PDF format. These depict a low-resolution representation of the final product and **should not be used for final color output or image resolution**. Additional proofs may incur a proof revision charge of \$10.00(G) each, plus additional design time. Proof approvals must be submitted via our online proofing system before production will begin.

ALL PROOF APPROVALS RECEIVED AFTER NOON CENTRAL WILL BE COUNTED AS RECEIVED ON THE NEXT BUSINESS DAY. PRODUCTION TIME BEGINS AFTER THE FINAL PROOF APPROVAL IS RECEIVED.

GRAPHIC DETAILS

ERRORS

We will not be held responsible for errors resulting from copy that was received or approved incorrectly.

TYPESETTING

Our normal art setup fee includes up to three lines of copy. If a specific font is required, the name of that font must be noted on your purchase order. If we do not have the desired font, the type will be re-set using a standard font or one that matches the desired font as closely as possible.

CHANGE OF COPY CHARGE

Whether for a new or repeat order, any request for an addition, deletion or change to the copy in a vector artwork file will result in an **\$10.00(G) Change of Copy Charge**.

REPEAT ORDERS

There are no setup fees for exact repeat orders placed within two years of original order. Any artwork older than two years must be resubmitted. Proof approvals are required on all repeat orders.

*****ARTWORK THAT HAS BEEN ALTERED IN ANY WAY CANNOT BE CONSIDERED FOR A REPEAT ORDER*****

COLOR

COLOR POLICY

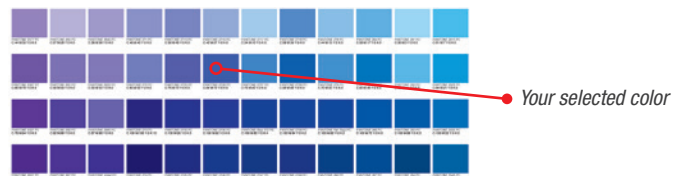

All of our products are printed CMYK (process color). If your artwork requires a specific color, please request a test grid (see below).

WE CANNOT GUARANTEE COLOR MATCHING.

TEST GRID*

If you are concerned about a specific color, we suggest ordering a test grid. Test grids are printed samples of your requested PMS (spot) color and its surrounding color family (e.g. reds, blues, etc.) These test grids contain the CMYK (process color) equivalent of PMS colors. The vast majority of PMS colors cannot be accurately represented in a CMYK printing process. Please state on your purchase order that you are requesting a test grid and the specific PMS color(s) you are trying to achieve.

CMYK Process Test Grid Example

MATCH PRINT*

A match print is a ¼ scale print of an entire art file. This is the most accurate way to represent an entire printed piece, since it will mimic the color and appearance of the piece as a whole, excluding any finishing. Please state on your purchase order that you are requesting a match print so it will be recorded on your order.

TEST STRIPS*

For the most detailed representation of full-size print quality and image resolution, we recommend requesting a test strip. An 8" x 20" section of the art is printed at 100%. Please state on your purchase order that you are requesting a test strip so it will be recorded on your order.

**The first test grid, match print and test strip available at no charge (customer to pay freight). Each additional test grid, match print or test strip is \$20.00(G) plus freight, expedited charges apply.*

All orders must be prepaid until credit terms are established. We accept Visa, MasterCard, and American Express credit cards. All new customers are required to prepay their first order. Credit application is available on our website.

ORDER CHANGES & CANCELLATIONS

No graphic or product manufacturing changes will be accepted after final proof approval. Customer is responsible for all labor and material costs incurred prior to cancellation and will be billed accordingly.

SHIPPING

MULTIPLE DROP-SHIP ADDRESSES OR SPLIT SHIPMENTS

A \$5.00(G) fee will be added for each additional address, plus all applicable shipping and handling. Contact Customer Care for the formal drop-ship address document to complete. Additional fees may apply depending on the request.

SHIPPING

Visit our website for shipping information and packing dimensions. All printed products ship F.O.B. Ramsey, MN 55303. Special shipping and pricing guidelines apply to oversized products to ensure product is delivered intact and on time.

RETURN POLICY

CLAIMS/RETURNS

Any damages or discrepancies must be reported within **five days of receipt** of merchandise. We reserve the right to not honor any claims not reported within five days. Returns will **not be accepted after 90 days** and cannot be returned without prior authorization from our factory. Returns may be subject to a 15% restocking fee. Contact Customer Care for additional processing information about claims or returns.

SUBSTITUTIONS

Due to unavoidable style modifications and enhancements to the products within this catalog, we may need to substitute a product with a similar item of comparable cost and style. We reserve the right to withdraw any product offering without prior notification.

DEFINITIONS

SETUP FEE - \$20.00(G)

The setup fee represents all costs of preparing process-ready artwork for production, as well as email proofing and two years of archival storage. **There is no setup fee when referencing a previous order within two years of order placement, for the same item using exact previous artwork.**

This setup fee will not be applied to orders placed via our website.

PRODUCTION LEAD TIMES

A production lead time is the amount of time it takes our factory to produce a finished product once final proof approval is received. Production lead times are listed for each product on their respective catalog pages and are subject to capacity and inventory levels. Your order will be scheduled within our production lead times or with rush service as requested to meet a required in-hands date. The factory reserves the right to adjust lead times. Customers will be contacted regarding affected orders.

Production begins upon receipt of:

- Complete purchase order
- Payment/credit approval
- Production-ready artwork
- Final proof approval

Your order will ship on or before the scheduled ship date via the freight method requested on the purchase order.

QUICK SHIP – 24-HOUR OR 48-HOUR
SHIP Completed purchase order, payment and production-ready artwork must be received by 5:00 p.m.

Central. Orders must be placed via our website. Established credit terms or credit card payment will be due at the time of order placement. Quick Ship item numbers must be used when placing orders for this program. Order drop ships from factory on the next business day (24-Hour Quick Ship) or within two business days (48-Hour Quick Ship) via UPS or FedEx only.

- Proofs are not available; accuracy of the artwork is the customer's responsibility
- Our factory will not be held responsible for any delays in the shipment due to discrepancies with the artwork and/or purchase order

- Quick Ship items cannot be combined with items that have regular lead times on any purchase order
- Artwork setup fee is included in the price
- Maximum quantity per order per day, indicated by end-column quantity
- This program is subject to availability

RUSH CHARGES/FEEES

For products not included in our Quick Ship program, rush service is available; this requires a prior approval by Customer Care. **All documents received after 12:00 p.m. Central will be counted as received on the next business day. Same-day service is not available.**

Standard rush charges:

Subtract one business day from product lead time = \$75.00(G)

Subtract two business days from product lead time = \$125.00(G)

WARRANTY

All of our products are designed to be cost effective and durable. Unless otherwise stated on the product's catalog page, standard hardware warranty is a one-year parts and labor warranty, which warrants product against defects in material or workmanship. Warranties do not cover damage due to accidents, abuse, or normal wear and tear. Products found to be defective will be replaced or repaired at the discretion of our factory.

TRADEMARKS

By submitting artwork to our factory, the customer assumes full responsibility for its use. Our factory will not be held responsible for submitted artwork that violates applicable laws or restrictions.
